Would you like to experience New York through the eyes of Mondrian? Or how about immersing yourself in a Dutch 17th century floral still life? Can you picture yourself lying in the French meadows that Van Gogh painted towards the end of his life? The joint project by the Thyssen-Bornemisza National Museum and Endesa allows you to do all those things and more. As part of the celebrations to mark the Museums at Night Festival from 18th – 20th May 2018, the artistic boundaries of the Thyssen Museum are being pushed to the limit. If you'd like to experience artistic virtual reality, just put on a pair of our special virtual reality glasses, open your eyes and let yourself go!
