

## The best museum in Madrid for a family visit. Don't miss the Thyssen!

The Spanish Federation of Large Families has singled out the Museo Thyssen-Bornemisza for one of its **Family Tourism Awards**. The Thyssen is the first institution to receive this prize.

**26 July 2013**

Workshop-visits for children accompanied by family members, activities specifically aimed at the **different age groups**, reductions on **tickets for Large Families**... the Museo Thyssen has been a pioneer and continues to be at the forefront in its concern for the family, aiming to offer better, more accessible and more educational options when visiting both the **permanent collections** and the **temporary exhibitions** and when participating in its range of activities.

In reward for this twenty years of endeavour, the Museum has been awarded one of the first six **Family Tourism Awards** given out by the **Federation of Large Families** ([www.familiasnumerosas.org](http://www.familiasnumerosas.org)), along with the city of **Toledo**, the **Valle de Arán**, the **Hotel Royal Son Bou in Menorca**, the **Sendaviva** Nature Park in Navarre and the **Europarques** International Biological Station: tourist organisations and destinations that have focused on the family public, adapting their activities and facilities to meet their requirements.

- **Reduced price tickets for Large Families**
- **Free entry for children aged under 12**
- **Summer activities for children**
- **Workshop-visits for families**
- **Family Christmas**
- **Orientation for families**
- **Interactive tour "Looking for Clues in the Museum"**
